|----------------------|--|
| Literacy | <p>Imagine you are a reporter, interviewing someone who is living in a refugee camp. Think of 10 questions to ask them about their life, and imagine their answers. You may have to do some research first.</p> <p>Design a poster to advertise our Christmas Rainbow Hampers.</p> <p>Write instructions for moving safely around 3 different areas in Penicuik. It would be good to include pictures to help younger children.</p> <p>Think of a book you are reading or have read in the past. Design a new front cover, and write a blurb for the back cover. Remember, your blurb should make someone want to read the book, without giving too much of the story away.</p> <p>Here's the start of a story. Your task is to write the rest of the story. Be as imaginative as you like! Maybe you could write it as a cartoon, or record yourself telling the rest of the story rather than writing it down. <i>'I opened my eyes slowly, as I wondered what had happened. Where was I? How had I got there? Then, suddenly, I remembered!'</i></p> |
| Numeracy | <p>You're planning a party for 20 people and have £100.00 to spend. Decide what sort of party it is then go online to a supermarket website, and work out what you could buy. Try to get as close to £100.00 as possible, without spending more.</p> <p>Spend 30 minutes practising your numeracy skills on Sumdog. https://www.sumdog.com/user/sign_in</p> <p>Some countries use different currencies to ours (we use pounds and pence). Imagine you work for a travel company, and you need to produce a handy leaflet to give to your customers, to help them understand the currencies of countries they may visit. Pick 5 countries, all with different currencies, then create the leaflet.</p> <p>Use Topmarks Daily 10 to practise your times tables. Challenge yourself by including times tables which you know you find tricky! https://www.topmarks.co.uk/maths-games/daily10</p> <p>Think of a real journey you would like to do by bus or train. It may involve visiting shops, cinema or restaurant, visiting friends or family, or spending time at a favourite place. Or all of these in a day! Go online to look at bus or train times, then try to calculate how much your travelling will cost.</p> |
| Health and Wellbeing | <p>Think of a sport you enjoy playing or watching. Write about the sport for someone who has never seen it. You'll need to include the rules, point system, equipment, how you play, how you win, number of players etc.</p> <p>Design a short exercise programme you can do at home. You need to think about warming up and cooling down, as well as making sure you've got any equipment you need in your home. You could film yourself completing the programme if you want.</p> |

Imagine you are a café or restaurant owner and design a menu. You need to cater for all customers, including vegetarians, vegans and people with allergies. Your menu should look attractive and show prices too.

It's really important to stay healthy. Some people enjoy doing yoga to look after their bodies and their minds. Try some yoga by going to the link below.

Sometimes we don't realise what ingredients are in some of the foods we eat. Find 5 items in your home, and have a look at the ingredients listed on them. Are there any that you don't recognise? If so, try to find out what they are.
